

HIERARCHICAL MODELS IN TURING.JL

An aerial photograph of a residential neighborhood that has been completely inundated with floodwater. The water is a murky, brownish-grey color, covering the streets, lawns, and surrounding areas. Numerous houses with various roof colors (brown, grey, red) are visible, partially submerged. Green trees are scattered throughout the landscape, their lower branches and leaves underwater. A few cars are visible on the flooded streets. In the background, a river or larger body of water is visible, along with more trees and a distant shoreline.
