

WEEK 12 OVERVIEW

An aerial photograph of a residential neighborhood that has been completely inundated with floodwater. The water is a murky, brownish-grey color, covering the streets, yards, and surrounding areas. Numerous houses with various roof colors (brown, grey, red) are visible, partially submerged. Green trees are scattered throughout the landscape, some with their lower branches underwater. A central road runs vertically through the middle of the image, with a few vehicles visible in the distance. In the upper right corner, a green field and a winding river or canal are visible, contrasting with the flooded area.
