

WEATHER TYPING

An aerial photograph of a residential neighborhood that has been completely inundated with floodwater. The water is a murky, brownish-grey color, covering the streets, yards, and surrounding areas. Numerous houses with various roof colors (brown, grey, red) are visible, partially submerged. Green trees are scattered throughout the landscape, some standing in the water. A central street runs vertically through the middle of the image, with a few cars visible in the distance. In the upper right corner, a green golf course is visible, partially surrounded by water. The overall scene depicts a severe weather event, likely a hurricane or tropical storm, that has caused widespread flooding.
