

BUILDING A SYNTHETIC GENERATOR

An aerial photograph of a residential neighborhood that has been completely inundated with floodwater. The water is a murky, brownish-grey color, covering the streets, lawns, and yards. Numerous houses with various roof colors (brown, grey, red) are visible, some with water reaching their windows. Trees are scattered throughout the area, some partially submerged. In the upper right corner, a green golf course is visible, partially surrounded by the floodwater. The overall scene depicts a severe natural disaster.
