

WEEK 6 OVERVIEW

An aerial photograph showing a residential neighborhood completely inundated with floodwater. The water is a murky, brownish-grey color, reaching up to the roofs of many houses. The houses have various roof colors, including grey, brown, and red. Numerous green trees are scattered throughout the neighborhood, some partially submerged. A central road runs vertically through the middle of the image, with a few vehicles visible. To the right, a green golf course is visible, partially surrounded by floodwater. The overall scene depicts a severe flooding event.
